## **New load restrictions to be implemented February 21**

Effective 7 a.m. CST, Tuesday, February 21, load restrictions will be implemented on the following highways:

- Highways south of Interstate 94 and west of ND Highway 1806 including ND Highway 1806
- ND Highway 22 from the Junction of Interstate 94 north to the Junction of ND Highway 73
- ND Highway 16 from Golva to Squaw Gap

All other previously implemented restrictions will remain in effect.

Traditionally, seasonal load restrictions are first implemented in the southwestern portion of the state and continue north and east as the spring season progresses. Restrictions are lifted when roadbeds have stabilized enough to carry normal traffic. Seasonal load restriction information is available by dialing 511 or by going to <http://www.dot.nd.gov/roadreport/loadlimit/loadlimitinfo.asp> where you can subscribe to load restriction email updates. Load restriction information can also be found on the NDDOT Travel Information Map at [www.dot.nd.gov/travel-info](http://www.dot.nd.gov/travel-info).
